PartsTech

FAQS

Do I have to sign up for an account that's outside of PartsTech to start referring people?

No, just by being a PartsTech user, you can get a share link without having to sign up for anything additional.

Is there a limit to how many times I can refer?

Nope, you can refer as many people as you like to increase your chances of getting paid.

Can I refer other people in my shop?

No, it is only for people signing up for a new PartsTech account.

What happens if my referee signs up but doesn't get to five orders?

They have to reach their first five orders in their first 30 days for you both to receive the \$100 gift card. Be sure to encourage them to sign up AND order when you share your code.
